WATERCOURSES

Mapped Ordinary Watercourses

Statutory Main Rivers Leicester

FLOOD ZONES

Flood Zone 3b

Flood Zone 3a

Flood Zone 2

FLUVIAL EXTENTS

Fluvial 1 in 20 annual chance

Fluvial 1 in 100 annual chance

Fluvial 1 in 100+30%

Fluvial 1 in 100+50%

Fluvial 1 in 1000 annual chance

Other Ordinary Watercourse 1 in 20 annual chance

Other Ordinary Watercourse 1 in 100 annual chance

Other Ordinary Watercourse 1 in 1000 annual chance

SURFACE WATER FLOOD RISK

Surface Water Hotspots

Critical Drainage Areas

Risk of flooding from surface water 1 in 30 annual chance

Risk of flooding from surface water 1 in 100 annual chance

Risk of flooding from surface water 1 in 1000 annual chance

This map was prepared solely for the Leicester 2022 Strategic Flood Risk Assessment. Flood risk data is periodically updated by the Risk Management Authorities (RMAs). When preparing a Flood Risk Assessment, planning applicants and consultants should obtain the most up to date information concerning flood risk from the RMAs. New information may be available which supercedes the data displayed on this map. This map is catchment scale and should not be relied upon at a local (planning application) scale.
