

A message from the Golden Mile Regeneration Group

Working with Leicester City Council means we can have a say in how our neighbourhood is developed. As a community, we are aware of issues around traffic, parking, and public areas that affect levels of trade and visitors to the area, as well as the people that work here on a daily basis. We would really like you to think about what is important to you and your business. This might be security, traffic issues, developing green spaces, or perhaps giving pedestrians safe places to cross the road so they can get to your shop or your house. Please come to one of the meetings if you can, or complete a feedback form (at the session or you can do this online) and help us make the Golden Mile a great place to be.

30 October

Abbey Primary School
between 3.30pm - 6pm

29 October

(Local business owners)
Belgrave Neighbourhood
Centre 6.30pm - 9pm

31 October

Belgrave Neighbourhood
Centre between
4.30pm - 7.30pm

Leicester
City Council

Come to the exhibitions to discuss possible improvements to Belgrave Road

We have options and ideas to enhance the shopping environment which will improve the area and attract more visitors as well as making this part of the city a more pleasant place to live.

We are at the very early stages and want people to come along and give their views about improving the street.

How could the neighbourhood be improved? What would you prioritise?

- A chance to improve car parking, and loading areas
- Slower traffic speeds, fewer accidents,
- Easier crossing for pedestrians and safer roads for walkers and cyclists
- Revitalised shopping area
- Accessible bus stops
- Landscaping
- Provision for visually impaired pedestrians and those with disabilities
- Bollards for shop security and other street furniture – benches etc.
- Wider pavements to improve the shopping environment
- Removing unnecessary signage and clutter

How could these changes be made?

The idea of 'shared space' has already worked in other cities to widen pavements, manage traffic flow and to make the area safer for traffic and pedestrians alike.

We want your views on whether this could work on Belgrave Road.
