

# Application for the Designation of a Neighbourhood Area (Regulation 5)

---

## General advice

When considering neighbourhood planning you need to be clear about what you are trying to achieve for your area. In particular are neighbourhood development plans the best means to achieve your vision for the community?

Think about the size of the neighbourhood you are proposing - is it logical for what you want to achieve, and can you explain why?

Whilst some external support is available most of the energy, time and resource that is put into developing a Plan has to come from the community. From start to finish the average plan takes between 18 months to 2 years.
