

Lifestyle services consultation

Frequently Asked Questions

What is the consultation about?

The consultation is a way of us understanding how residents would like services delivering that relate to living a healthy lifestyle. Through this survey and the focus groups we'll be running we hope to understand how you would prefer these services to be delivered. We'll also be asking about how technology can help support people to live healthy lives.

How will it affect me?

The consultation will help determine how some services are delivered in Leicester. Some of these services are available to residents with certain medical conditions but others are available to all residents.

How is it being funded?

Public Health funds lifestyle services across the city and we are asking for your views to ensure we provide services which meet residents needs - but which also provide good value for money.

How can I let you know what I think?

You can provide us with your thoughts online at consultations.leicester.gov.uk. If you would prefer to respond with a paper copy then please contact us on 0116 464 4842 and we will post you a paper copy of the consultation.

What will happen after the consultation?

The consultation will close on Sunday 10 June 2018 and after this time people's views will be collated and a final plan for lifestyle services developed. The council will then take steps to implement this new model.

Where can I find more information?

Results of the consultation and next steps for lifestyle services will be posted on the council website, including a timeline for when any changes will be made.
